

Bioanalytical Laboratory Technician

Euro Diagnostica/Wieslab are looking for a laboratory employee who will be joining us in Laboratory Services.

Your main task will be to work closely together with Bioanalytical Scientists that will have the overall responsibility of planning and reporting performed bioanalytical services. You will be working with documentation, assay development, method validation and sample analysis in regulated non-clinical and clinical studies. As a Laboratory Technician, you will be using various laboratory instruments (i.e. ELISA reader, Meso Scale Discovery Platform, Gamma Counter and Luminometer) for analysis of samples. As Wieslab also performs diagnostics services you may also have the opportunity to work with testing of patient samples within the field of autoimmunity.

Tasks included but are not limited to

- Collaborate with Bioanalytical Scientists in projects
- Follow GLP / GCP regulations
- High focus on extensive documentation for sample analysis and preparation for sample analysis
- Highly involved in the writing method instructions as well as other instructions
- Receive and register reagents and samples
- Plan and perform testing based on study plans and method SOPs
- Testing of patient samples
- Deliver bioanalytical assay results that are approved and reported by a Bioanalytical Scientist
- QC check and proof-read results and reports
- Equipment responsibility

We expect that you have

- An education within biomedical laboratory sciences or similar
- Good knowhow in:
 - Immunochemical methods (e.g. ELISA, RIA, MSD)
 - Cell based assay methods
- Experience:
 - Validation of assays
 - Laboratory information systems (LIMS)
 - Any of ISO 17025, ISO 15189, ISO 13485, GCP or OECD GLP
- Ability to speak and write clearly and professionally in Scandinavian languages and English

We offer

- A dynamic and supportive atmosphere
- A wide variety of job tasks and the opportunity to develop new skills
- A positive and enthusiastic growing team

Working time

Expected start of employment: As soon as possible. Full time. Salary according to agreement.

Trade union representatives:

Gunilla Jonsson (Unionen), phone: +46 40 53 76 28

Elsa Grenmyr (Akademikerna), Tel: +46 40 53 76 54

How to apply

Please submit your application in Swedish or in English by clicking <https://www.roirekrytering.se/annons?id=7751> at the latest **2017-09-26**.

For further information about the position you are welcome to contact Anna Laurén on anna.lauren@eurodiagnostica.com or tel: +46 40 53 76 52.

About Wieslab

Wieslab is a specialist laboratory that offers contract bioanalytical services as well as clinical diagnostics testing for clinicians and laboratories worldwide. Wieslab Laboratory Services is an integral part of Euro Diagnostica and offers ISO 17025, GCP and GLP compliant services ensuring regulatory requirements are met. Wieslab offers a range of Bioanalytical services for non-clinical as well as clinical studies for pharma, biotech and CRO customers.

Wieslab has experience within a wide range of immunoassays including ELISA, MSD, RIA and cell based assays. With more than 20 years of experience in developing and running immunoassays our service offering includes method development, optimization, validation and sample analysis.
